To all our Valued Customers

It has come under our attention that some of our Customers are very concerned about the outbreak of the Covid 19 virus and how it affects Dinner Time Home Cooking.

It has been confirmed that the Virus does not spread through any intake of any Food Sources. In other words you can not get sick from eating any food as the virus does not spread in such a way at all.

As an extra precaution, heat food in the microwave for at least one min. as the virus cant live in elevated temperatures and remember to wash your hands before and after every meal.

We are taking all necessary precautions, as prescribed by Government, to make sure our Kitchen Staff and Drivers are up to date with the heightened need for hygiene.

All drivers have been supplied with Antibacterial Hand Sanitiser in each vehicle, with clear and firm instruction on how to use it effectively and clear instruction to avoid any personal contact in any form what so ever.

All Kitchen staff will be visibly screened and sanitised daily with entering the premises. All protective work clothing will be washed daily and sanitised on the premises and will not leave the premises at any given time as a precautionary measure.

All general hygiene procedures on our premises are being assessed and monitored and will be adjusted accordingly to ensure the safety of all involved.

We hope that this answers some of your concerns.

Kind Regards

Dinner Time Home Cooking
